A Drilling Fluids Company  
Brochure 2017

A man in a dark suit and white shirt is looking through a telescope. The background is a light blue world map. The text "Broadening our Horizons" is written in a purple serif font in the upper right corner.

# Broadening our Horizons

Having gained inspiring experiences exporting and importing goods for diverse areas of commerce in Iran and Iraq markets, *NSR* has laid a foundation that can be the stepping stone to help your business thrive. Accordingly, we invite entrepreneurs to share their ideas with us to get a better insight.

# About us

Based in Tehran and Erbil, Nasim Saderat Rad (NSR) has emerged as a major player in the drilling fluids sector determined to provide its customers with unique and personalized drilling fluid engineering and operations services. Enjoying a team of highly experienced managers and experts, NSR is now recognized as a reliable company in drilling industry. With a fully equipped production shop and a drilling fluids laboratory in full accordance with international standards, our company is ready to serve other operating companies in the field. Since we started, our core objective has been to provide

minerals and chemicals for various industries, including oil and gas well drilling industries. In this regard, we offer all the support and capabilities of major service companies to achieve excellence in supplying the required materials to meet the demands of domestic and neighboring countries' markets. Our main activities are defined in response to drilling industry requirements and include supplying all types of chemicals and minerals, provision of engineering services before and after-sales, product quality assurance, and products exporting

# Vision

**NSR** vision is to be recognized by our customers as the best drilling fluids company in Middle East Region and our goal is to provide our customers with the services they need quickly, efficiently and honestly. **NSR's** advantage is not limited to superior fluid systems, our team of experienced scientists, office and field engineers bring the expertise to each meter of every well to provide maximum drilling efficiency and environmental care. We pride ourselves in providing custom solutions to the challenges presented by operators and work hand in

hand to insure our products and services meet their needs. **NSR** is proud of its employees. Our growth and success have not been possible without the commitment and hard work of our people. Today many of our core operations are supported by personnel that have demonstrated their loyalty to our company over the years and have contributed their thoughts, ideas and enthusiasm. We believe this dedication to build a strong relationship is the source of our success and the foundation to our future.

## Logistics

NSR understands the essence of the delivery time in Oil & Gas operations and accordingly offers extensive expertise in logistics management besides an unparalleled commitment to providing excellent service tailored to your requirement. Our strength is establishing a global network of land and marine transportation agents besides a highly effective warehousing network which facilitates timely delivery of your order. In Iraq, for instance, we have our own stocks locating in three strategic parts of the country, i.e. warehouses in Erbil, Kalar, and Arvand free zone, located at Iran-Iraq border, which guarantee swift delivery

to Kurdistan region, central, and Southern parts of Iraq respectively. The Erbil warehouse is considered to provide services to the clients in northern Iraq, i.e. Erbil itself, Kirkuk, Al-Sulaymaniyah, and Dohuk. Likewise, the central warehouse exists to serve Baghdad, Diyala, Al-Anbar, Babil, Wasit, Al-Qadisiyah, Misan, and Al-Najaf provinces, while Misan, Al-Basrah, Al-Muthana, and Thi Qar in the south are covered by the Arvand warehouse. So wherever your operations are and no matter how great or small your order is, you can always rely on NSR to take the load off your mind.
